

LOUIS DELBROUCK

FULLSTACK DEVELOPER

PROFILE SUMMARY

I am seeking a position that combines my passion for new technologies with my skills in computer science and mathematics. I would be delighted to collaborate on developing innovative applications in the field of computer science

EXPERIENCE

My next job 🤖

YOUR COMPANY NAME

Full Stack Developer Intern

Approach Cyber - Mont-Saint-Guibert, Belgium | 2024

- Worked alongside the team responsible for developing the application Itsme, contributing to improve my knowledge in cybersecurity.
- Led the creation of a web application from scratch knowledge focusing on user experience and security.
- Managed both the front-end and back-end development of the web application using technologies such as C#, Angular, etc
- Worked closely with the cybersecurity team to ensure the application met strict security guidelines.
- Documented the development process and created maintenance guides for future updates.
- Integrated advanced security features, ensuring compliance with industry standards and secure authentication protocols (OAuth, OpenId Connect)
- Participated in daily Scrum meetings and sprint planning with the development team to ensure smooth progress and continuous feedback.
